

Arnold Parker, the originator of Skywatch was in the news again earlier this year. This time it was in the Yorkshire Post, the largest local newspaper in the region. You will have missed the physical copy (with a great photo in it!) but you can read all about it online [here](#) There is also a video which is worth watching.

There are a number of Gyros involved in Skywatch up and down the country. There is Norman (G-YROX) in Ireland, Kai (G-CEHM) looking after the Thames Barrier, and Phil (G-CEHN) and Arnold (G-CFCL) out of Rufforth in York.

You can get more details on Skywatch [here](#)
